

Compilation Details

Layer Name: Bedrock Geology dataset

Layer Type: Bedrock Geology

Feature Type: Dataset

General Information

Release Date: 2022-02-01

Released By: Yukon Geological Survey

Contact Info: geology@yukon.ca

Summary

This update of the Yukon bedrock geology map builds upon the previous compilation by Gordey and Makepeace (1999, 2001). The data set includes the bedrock geology, faults and contacts, geochronology and map index; published by Yukon Geological Survey (January 2022). New digital data are being released incrementally and will be updated regularly as new parts of the compilation are ready. Any errors noted by the user of this data should be reported promptly to the Yukon Geological Survey.

Description

Last Updated: Feb 1, 2022

Yukon Bedrock Geology Map

This update of the Yukon bedrock geology map builds upon the previous compilation by Gordey and Makepeace (1999, 2001). It includes new, detailed bedrock geology maps and regional compilations that have been published by the Yukon Geological Survey and the Geological Survey of Canada, as well as some recent thesis works. A few of these maps were partially integrated into the digital dataset by Gordey and Makepeace (2003), but only as overlay to the 1999 compilation. A number of errors and omissions from the 1999 compilation of Gordey and Makepeace were also noted and corrected during compilation of this version of the map.

The Yukon bedrock geology GIS dataset is regularly updated and can be downloaded from the Yukon Geological Survey's website: www.geology.gov.yk.ca. Users are advised to consult the website regularly to ensure they are working with the latest version of the geodatabase or shape files. This update of the GIS dataset includes an expanded attribute structure (compared to the 1999 dataset) that facilitates searching of the geodatabase.

This dataset requires the gscGeology font in order to properly label the bedrock polygons. This font file is packaged with the dataset when downloaded from geomaticsyukon.ca or geology.gov.yk.ca.

The Yukon Geological Survey aims to provide users with the best available geoscience data for Yukon. Any revisions or additional geological information known to the user would be welcomed by the Yukon Geological Survey.

Revision History

Finished Date	Comment
Mar 3, 2015	updated GIS and PDF files for all of Yukon (supercedes all previous versions)
Feb 18, 2016	Updated PDF files (November 2015 release), added legend.
Nov 30, 2015	Updated GIS files. Bundled Contacts and Faults.
May 3, 2018	Updated Geodatabase, shapefiles, and web map to April 2018 version.
Jan 19, 2017	Updated Geodatabase, shapefiles, and web map to Jan 2017 version.
Feb 1, 2022	Updated geodatabase, shapefiles, and web map to Jan 2022 version. Merged bedrock map index compilation.
Feb 11, 2022	Updated QGIS qml layer files for 2022. Now includes layers for faults and contacts.
Sep 1, 2023	Updated for 2023.
