Work History

Staked as Jim cl (YA3812) in Oct/75 by J. Snell. D. Person staked Tagnar cl (YA74647) two km northeast in Jun/82. J. Moreau staked Rad cl (YA82434) one km west in Jun/84.

Capsule Geology

The Snell claims were staked over a contact between granodiorite and metavolcanic rocks. The Tagner claim was probably staked to protect surface rights.
