

## Occurrence Details

**Occurrence Number:** 105K 071

**Occurrence Name:** Coward

**Occurrence Type:** Hard-rock

**Status:** Unknown

**Date printed:** 12/16/2025 3:20:46 PM

## General Information

**Secondary Commodities:** copper

**Aliases:** Cow, Tay

**Deposit Type(s):** Vein Cu+/-Ag Quartz

**Location(s):** 62°32'0" N - -133°59'12" W

**NTS Mapsheet(s):** 105K12

**Location Comments:** .5 Kilometres

**Hand Samples Available:** No

**Last Reviewed:**

### Capsule

#### Work History

Staked as Tay and Cow cl (68983) in Jul/54 by K.G. Sanders for Pelly River EL (Pioneer Gold ML, American Standard ML, New York Alaska Gold Dredging Corp and Northwest Ventures L). Restaked as Tay cl (YA22691) in Aug/77 by Anvil-Fishook JV (Amax Potash L, Aquitaine, Union O), which explored with mapping, geochem, mag and EM surveys in 1978 and 1 hole (181 m) in 1980. Amax transferred its interest to Canamax Res Inc in 1983.

#### Capsule Geology

Traces of chalcopyrite occur in narrow quartz veins cutting slate and siltstone of the Lower Cambrian Gull Lake Formation near the margin of a small mid-Cretaceous feldspar porphyry stock. The original staking was based on rumours of lead-zinc float. The drill hole tested an EM conductor and intersected graphitic quartzite within a thick section of quartz-biotite-andalusite schist and biotite quartzite.
