

## Occurrence Details

**Occurrence Number:** 116G 062  
**Occurrence Name:** Jade  
**Occurrence Type:** Hard-rock  
**Status:** Prospect  
**Date printed:** 12/15/2025 1:06:07 PM

## General Information

**Secondary Commodities:** barite  
**Aliases:** Milch  
**Deposit Type(s):** Sediment hosted Stratiform Barite  
**Location(s):** 65°11'7" N - -138°10'4" W  
**NTS Mapsheet(s):** 116G01  
**Location Comments:** .5 Kilometres  
**Hand Samples Available:** No  
**Last Reviewed:**

### Capsule

#### Work History

First noted in 1978 by geologists conducting regional reconnaissance for Baltic Drilling Ltd, but apparently not staked.  
Staked as Karen cl 1-8 (YA32582) in Jun/79 by Jade Drilling Ltd and optioned to Milchem Inc, which carried out hand trenched, drilled 13 holes (451.8 m) and collected a 450 kg bulk sample in 1980.  
Restaked as Jade cl 1-8 (YC20570) in Dec/2000 by Cash Minerals Ltd, which carried prospecting, geological mapping, hand trenching and collected a 500 kg bulk sample in 2001.

#### Capsule Geology

Massive barite is exposed in outcrop and in float over an area 80 m long and 20 m wide. It occurs as a northeast dipping lense with minor disseminations and layers of calcite and dolomite and is hosted within Upper Cambrian to Lower Devonian grey and buff-weathering dolomite and limestone of the Bouvette Formation. Occuring along the crest of a low ridge, it forms a wedge-shaped body up to 15 m thick by 40 m long.  
Milchem's sampling of drill core from the seven holes that intersected the mineralized zone returned a weighted average specific gravity of 4.04 g/cm<sup>3</sup> from a total of 166, roughly 3 m long, sections. No sulphide minerals are present in the barite.  
Three representative specimens collected by Cash Minerals contained 88.4 to 96.5% barite (52 to 56.8% Ba) with specific gravities ranging between 4.18 and 4.45 g/cm<sup>3</sup>. At the time of reporting no analyses had been completed on the material comprising the bulk sample.

### Work History

Date	Work Type	Comment
12/31/2001	Geochemistry	Amount of work done: .5 TONNES
12/31/2001	Geology	
12/31/2001	Trenching	
12/31/2001	Other	
12/31/1980	Geochemistry	Amount of work done: .45 TONNES
12/31/1980	Drilling	Number of holes drilled: 13 Amount of work done: 451.8 METRES
12/31/1980	Trenching
